

Colorado Measures of Academic Success DROP-IN ARTICLE

Principals to Parents

Access your student's CMAS score reports through Family Portal in June

We are so proud of how much our students have learned and grown this school year. In April, they had the opportunity to showcase their learning and skills on the Colorado Measures of Academic Success (CMAS) tests, and they did an amazing job!

We're excited to share that your child's preliminary CMAS performance report will be available online on June 11 through the **Family Portal.** This secure platform provides an easy way for you to view important information about your child's academic progress based on the only assessments given to all Colorado students that measure what students should know and be able to do at the end of each grade.

Here's How You Can Access Your Child's CMAS Report

- Visit the Family Portal: <https://familyportal.pearson.com/CO>
- You'll need the following information to log in:
 1. **Student's State ID (SASID)** – This is found at the top of your child's CMAS score report from last year or in the Parent Portal (<https://tinyurl.com/ICforParents>). Should you need further assistance, please call the IT help center at 303-387-0001.
 2. **Student's Last Name**
 3. **Student's First Name**
 4. **Student's Date of Birth**

What You'll Find in the Report

The preliminary report will include your child's score and performance level. Later in June, a final report will be available with additional details, including:

- A breakdown of strengths and areas for growth
- Comparisons of your child's performance to their peers at the school, district, and state levels
- Tips for supporting your child's learning at home

Helpful resources like a video guide and a detailed explanation document will also be available in the Family Portal to assist you in understanding the results.

CMAS Scores Are One Piece of the Puzzle

CMAS scores provide valuable insights about your child's academic journey based on Colorado's grade level expectations. We encourage you to view them alongside classroom grades and teacher feedback for a more complete picture of your child's progress. Please take a few minutes to review your child's results and celebrate their hard work!
